GraalVM™

GraalVM Mascot

GraalVM mascot is open source. This means that the extended family of contributors, teams, and anyone else who likes our product is free to use this cute robot rabbit wherever they want.

Oracle Orange

#F29111

White

#FFFFFF

Dark Grey

#35373A

The main colors of Mascot are white, Oracle Orange and Dark Grey. Depending on the tone of the background (light/dark), the color of his robotic hands changes to improve the contrast of the elements.

GraalVM Mascot

Acceptable Usage

We have prepared for you a whole library of illustrations about our mascot (which will be constantly expanding), but you can create your personal image for this guy, teach him new skills and actions. For this you can download our basic illustrations and play with different layers of the .EPS format here. Change mascot's emotion, hand's position etc.

GraalVM Mascot

Unacceptable Usage

Don’t change the main colors of the mascot, as well as disproportionately change the size (stretching the image, flattening, etc.). Also, please, don’t use two or more brand icon or product logos on the same illustration.

The use of the mascot should not promote bad habits and other contexts that are contrary to the views and policies of the GraalVM and Oracle

ORACLE®
GraalVM™

Thank you

We hope you will have fun interacting with our cute mascot.
